A web development graduate who is passionate and willing to learning new web technologies to implement into web applications. My hard work ethic, time management skills and my ability to work as a team player have allowed me to work under any circumstance in a fast-paced environment under tight deadlines

Experience

Web Development Student at Humber, January 2022 to August 2022

Learned full stack web development technologies and tools to create fully functioning web applications using client side, server side, and database languages and frameworks

Projects:

- React web app quiz game utilizing quiz API to display random questions
- JavaScript web application to fetch APIs showing the user weather conditions for their city and the current moon phase they can currently observe
- A content management system frontend and backend built using PHP and phpMyAdmin
- NodeJS user management system application utilizing Express, MongoDB, EJS, and jQuery showcasing full CRUD functionality for user interactivity
- C# Asp.net trip planner application utilizing LINQ to create a CRUD web application in which users can organize their trips and insert notes for each trip
- Fully responsive and accessible bartending front-end website utilizing HTML5/CSS3, Bootstrap, and JavaScript/jQuery

Freedom Mobile Team Leader, 2019-Present

- Team leader of 6 sales agents at Freedom Mobile, Duties include:
 - Highest performing sales team in Ontario for multiple categories under my leadership using team building techniques
 - Winner of many individual and store sales competitions including “*Best sales agent in Ontario*” and “*Most accessories sold by store in Ontario*”
 - Multi tasked on many assignments in a fast-paced environment

Education

Humber College – Postgraduate Certificate: Web Development, January 2022 – September 2022

- Frontend and backend web development utilizing a wide array of languages, frameworks, and technologies to implement into full functional web applications
- Learned project planning, team working with other developers and designers, and creating project proposals to be well adapted to the workplace setting using tools such as Figma and Miro
- Created and applied responsive and accessible standards in web development and design

McMaster University (2016-2020)- Bachelor of Arts: Honours Political Science

- Courses included: Political philosophy, Canadian Politics, Canadian law, logic, statistics, macroeconomics and microeconomics, and world religion
- Awards and Honours:
 - High average entrance scholarship
 - Member of the Golden Key International Honours society
 - Graduated with Honours
